

## PROFILE

I recently completed an MA Fine Art Digital with Distinction. My practice investigates the use of digital print, video and audio-visual installation to emulate altered states of consciousness such as meditation and trance. I was awarded the 2020 Mercers' Arts Award for my academic achievement supporting me to bridge the gap between academic study and professional working.

## EDUCATION

- **MA FINE ART DIGITAL**  
Camberwell College of Arts | Oct 2018 - Jul 2020  
Project proposal: "Technological Transcendence": Using New Media art to emulate altered states of consciousness.  
Research paper title: "Joining heaven, earth, human and computer: this paper raises challenges in application of Chögyam Trungpa Rinpoche's 'dharma art' teachings to media software."
- **FINE ART COURSE**  
City Lit | Sep 16 - Jul 18  
An introduction to contemporary fine art practice exploring painting, drawing, sculpture, mixed media and contextual studies in a series of structured projects. Provided skills to develop a fine art practice. We participated in a final exhibition. I acted as the exhibition co-ordinator liaising between cohorts, project managing and producing marketing materials.
- **BSC MATHEMATICS**  
University of Bristol | Sep 02 - Jun 05  
Mathematics with open units in European Cinema, Philosophy, Italian, German and HDI & Multimedia Authoring.
